

CORRESPONDENCE

SUGGESTED

Correspondents must write all proper names plainly. We can guess at almost anything except a proper name and have hopes of being correct.

Long letters concerning unimportant matters will not be published.

Most reporters think they must write a long letter or none. Such make a serious mistake.

If you only have one item and that only makes three lines, send it on and don't try to add a page to it.

Always sign your real name some where.

We want your letters not later than Wednesday.—Ed.

Good Blood

Is essential to health. Every nook and corner of the system is reached by the blood, and on its quality the condition of every organ depends. Good blood means strong nerves, good digestion, robust health. Impure blood means scrofula, dyspepsia, rheumatism, catarrh or other diseases. The surest way to have good blood is to take Hood's Sarsaparilla. This medicine purifies, vitalizes, and enriches the blood, and sends the elements of health and strength to every nerve, organ and tissue. It creates a good appetite, gives refreshing sleep and cures that tired feeling. Remember,

Hood's Sarsaparilla

Is the best—in fact the One True Blood Purifier. Cure Liver Ills; easy to take, easy to operate. 25c.
